

Tony Smith
Junior Full Stack Developer

📍 Gloucester, UK

✉ butterfly_tony@outlook.com

Detail-oriented Junior Software Developer with a flair for creating visually engaging learning solutions. Adept at managing multiple projects, I excel in integrating innovative tech and design trends to enhance content. Quick to master new tools, I focus on delivering creative, impactful learning experiences with a keen eye for detail.

Skills

Languages

JavaScript, HTML, CSS, TypeScript,
MQL, Python

Frameworks and Libraries

React, Next, Express, Tailwind CSS,
Ant Design, Redux, JWT

Tools

Git, VS Code ,Jira, Webpack

Education

University of Manchester
Computer Science
Bachelor of Science
2015 – 2019

Interests

Continuous learning

Experience

Taiko Labs 2022 – Present
Junior Full Stack Developer Hong Kong

- Contributed to developing a decentralized application (dApp) for cross-chain interoperability between Taiko's blockchain and Ethereum network, assisting in expanding the application’s capabilities.
- Developed build 3+ responsive user interfaces using Typescript, React.js, Next.js, and Tailwind CSS, which contributed to a 20% increase in user engagement.
- Supported the implementation of event-driven architecture with Node.js, improving real-time data processing and system interactions.
- Aided in optimizing system architecture, leading to a 15% reduction in operational costs and better transaction efficiency.
- Received recognition for outstanding contributions to the development team’s success in delivering projects on schedule and exceeding client expectations.

Evident Proof 2021 – 2022
Intermediate Full Stack Developer London, UK

- Assisted in developing 6+ React.js frontend components and interfaces, contributing to a 30% improvement in loading times and integration with backend functionalities.
- Supported the building and maintenance of a backend system with Node.js and Express.js, helping reduce processing time by 30% and ensuring secure data handling.
- Contributed to enhancing data verification systems, aiding in a 40% improvement in efficiency.
- Played a role in delivering 8 major projects on schedule, consistently meeting and sometimes exceeding client expectations.

Squiz 2019 – 2021
Web Developer London, UK

- Assisted in integrating 10+ external APIs into web pages and applications, collaborating with 3 engineering and design teams to enhance functionality for small businesses.
- Participated in over 25 code reviews, debugging sessions, and integration/deployment processes using GitHub to ensure code quality and deployment efficiency.
- Helped develop and deploy 5 RESTful APIs using Node.js and Express.js, contributing to a system with 99.9% uptime.
- Contributed to optimizing API response times by 30% through basic performance tuning and caching strategies, supporting improved system reliability.
